**Pierrick COUPÉ**

CNRS Researcher  
PICTURA Research Group  
Patch-based processing for medical and natural image  
LaBRI - UMR 5800, Talence

«Analyse quantitative et diagnostic assisté par ordinateur pour la neuro-imagerie»

Pictura research group is located at the LaBRI lab, Bordeaux, France. Pictura mainly focuses on the development of efficient patch-based methods (a.k.a nonlocal methods) and their application in specific domain such as medical images or natural image editing problems. The expertise of the Pictura group includes segmentation, reconstruction or synthesis of n-dimensional images.
